

## Compliance

# Unified Assessment Program

In today's evolving threat landscape, protecting digital information is a priority – and in some cases, a requirement. Complying with industry and government security regulations, though, can be complicated. You need a partner that understands your security obligations, and can help you fulfill them.

Tevora IS that partner. Our consultants have the extensive security knowledge and experience needed to assess your security readiness; implement the appropriate security controls, policies and processes; attest to your adherence to the defined requirements; and transform your compliance requirements into a competitive advantage. ▲

The independent examination and evaluation of a company's in-place security program and controls are necessary to keep brands safe and organizations compliant. Security assessments are competitive tools that enable customers, prospective customers, and stakeholders to assess an organization's due diligence and adherence to standards, and a commitment to continuous improvement.

In today's highly regulated business environment, organizations often must prove compliance with a number of government regulations and industry standards.

## Assess Once, Leverage Everywhere

Tevora assesses and tests against ALL of the following industry standard compliance requirements during a single assessment using the Tevora Unified Assessment Program:

- PCI DSS
- PA-DSS
- ISO 27001
- ISO 27018
- STAR
- SOC 1
- SOC 2
- MPAA
- FedRAMP
- FISMA
- HIPAA
- HITRUST
- NIST 800-53
- NIST 800-171
- And More...

## Our Purpose

To protect the world from cyberthreats.

## About Us

Founded in 2003, Tevora is a specialized management consultancy focused on cybersecurity, risk, and compliance services. Based in Lake Forest, CA, our experienced consultants are devoted to supporting the CISO in protecting their organization's digital assets. We make it our responsibility to ensure the CISO has the tools and guidance they need to build their departments, so they can prevent and respond to daily threats.

Our expert advisors take the time to learn about each organization's unique pressures and challenges, so we can help identify and execute the best solutions for each case. We take a hands-on approach to each new partnership, and –year after year –apply our cumulative learnings to continually strengthen the company's digital defenses.

Go forward.  
We've got your back.

But too many assessments can be too much of a good thing, resulting in audit fatigue – the level at which the results of formalized examinations and questions become too predictable, and impact the quality of the information gathered.

Tevora partners with you to simplify and optimize the assessment process for you, making it possible to meet your multiple compliance requirements AND avoid audit fatigue. Our seasoned consultants apply our specialized methodology to assess your environment once. All information is captured and synchronized in the Tevora Unified Assessment Program, enabling our assessment teams to leverage common security controls, policies, and documentation across multiple certifications and attestations – without having to conduct separate audits, and while maintaining the high-quality of the information that fuels your program results.
