

COMPLIANCE

FedRAMP Compliance and Assessment Services

The Federal Risk Authorization Management Program (FedRAMP) provides a standardized approach to security assessment, authorization, and continuous monitoring of Cloud Service Providers (CSPs) that do business with the Federal government. Using a “do once, use many times” framework, FedRAMP reduces the cost of FISMA compliance for CSPs and enables government entities to secure government data and detect cybersecurity vulnerabilities at unprecedented speeds. ▲

Preparation Services

Our proven preparation program has been perfected through years of working as security advisors to some of the world’s largest companies. We can draw on this extensive, real-world experience to help you prepare for FedRAMP Authorization. This may include working with you to write a System Security Plan (SSP), implement security enhancements, or perform other activities needed to ensure you are prepared for FedRAMP certification.

Assessment Services

As one of the few firms with Third Party Assessment Organization (3PAO) status approved by FedRAMP, we are qualified to perform validated FedRAMP assessments that verify your compliance with FedRAMP controls. After you achieve FedRAMP Authorization status, our team of security specialists can help you perform Continuous Monitoring, Annual Assessments, and other activities needed to keep your environment secure and maintain compliance with FedRAMP requirements.

Company Overview

Tevora is a specialized management consultancy focused on cyber security, risk, and compliance services. Our combination of collaborative strategic planning and skillful execution make us a trusted partner to some of the most famous brands in the world.

Go forward. We've got your back.

We live in a digital world, and your customers trust you to keep their information safe. We make it our responsibility to equip you with the information, tools, and guidance you need to stay out of the headlines and get back to business.

Eyes on the future.

Tevora takes a long-term outlook and proactive approach to every engagement. We combine our technical knowledge with practical business acumen to produce and execute strategies that fortify your organization's assets and build a foundation for the future.

Audit Standards

Our MBAs and CISSPs can help your organization assess and test against PCI DSS, PADSS, HITRUST, ISO 27001, STAR, SOC I, SOC II, MPAA, NIST CSF/ 800-171 and CMMC.

Tevora offers a full range of services designed to anticipate and meet the changing needs of your enterprise

Compliance

We assess, audit, and certify compliance across a comprehensive portfolio of cybersecurity standards.

Enterprise Risk Management

We speak the language of cyber risk and translate it into business impact - giving you rich data to make meaningful decisions.

Data Privacy

We help you craft strategies and plans that work; allowing you to meet the growing demands of domestic and international privacy regulations.

Security Solutions

We help you plan, implement, and integrate cybersecurity products that reduce your risk profile: on-prem, mobile, and in the cloud.

Threat Management

We test your systems, processes, and security with a world class team of certified hackers and security researchers.

Incident Response

We are a team of first responders, threat hunters, and incident containment specialists working with the latest tools and techniques; ready to serve when your business needs it most.
