

Tabletop Exercises

Conducting simulated cyberattacks in a controlled environment can unveil a great deal about an organization's capability to manage a potential threat in real-world scenarios; this is where Tevora's Tabletop Exercises come in. We conduct a thorough review of your organization's current policies, procedures, security tools, and infrastructure, and then tailor immersive threat simulations that are customized to your unique environment.

Advantages

Identify Communication Gaps Discover weaknesses in your incident response communication policies, procedures, processes, and documentation.

Build Organizational Muscle Memory Dry runs and walkthroughs of potential cyber incidents helps ensure your team will be prepared when actual incidents occur.

Identify Weaknesses in Cyber Defenses Find gaps in your training, tools, and processes for responding to cyberattacks.

Identify Compliance Gaps Uncover areas where you fall short of compliance requirements for security and privacy standards such as PCI DSS and NIST 800-61.

Reduce Downtime Avoid incurring potential costs if an incident response team is delayed or pursues the wrong approach in response to a cyber incident.

Enable Rapid Recovery Ensure your business can swiftly resume regular operations following a cyberattack.

Your Trusted Partner

Tevora can be a trusted partner to help you design and execute customized tabletop exercises that ensure you are well-prepared for anything cyber attackers may throw at you.

Tevora's Tabletop Exercise Approach

1 Diverse Simulations

- Cyberattacks such as ransomware, phishing, spear phishing, denial of service, and social engineering.
- Policy violations including copying company data, harassing emails, and more.

2 Incident Management

- Implementing best practices on coordinating with senior leadership, legal, and security teams simultaneously throughout the tabletop engagement process, while keeping all relevant stakeholders informed.

3 Incident Scope

- Disaster Recovery and Business Continuity plans.
- Our team is proficient in developing response plans for catastrophic events, such as fires and earthquakes
- Through a comprehensive review of your policies, procedures, security tools, and resources, we can identify any potential gaps that may increase your organization's risk level.

4 Collaboration

- We strive to create a no-fault, no-wrong-answer, and no-blame environment.
- Teams collaborate by maintaining an open channel of communication and learning to coordinate with both their colleagues and other personnel in your organization to effectively resolve the incident.

5 Tabletop Exercise Report

- Deliverable is a graded report card with detail on the organization's performance.
- The report identifies gaps in systems, processes, and human resources in response to incidents in the environment.

Go forward. We've got your back.

We live in a digital world, and your customers trust you to keep their information safe. We make it our responsibility to equip you with the information, tools, and guidance you need to stay out of the headlines [and get back to business].

Eyes on the future.

Tevora takes a long-term outlook and proactive approach to every engagement. We combine our technical knowledge with practical business acumen to produce and execute strategies that fortify your organization's assets and build a foundation for the future.

Audit Standards

Our MBAs and CISSPs can help your organization assess and test against PCI DSS, PA-DSS, SSF, HITRUST, ISO 27001, STAR, SOC I, SOC II, MPAA and more.

ACHIEVED ACCREDITATIONS:

AUTHORIZED ASSESSOR:

TEVORA™

Tevora is a specialized management consultancy focused on cyber security, risk, and compliance services. Our combination of collaborative strategic planning and skillful execution make us a trusted partner to some of the most famous brands in the world.

Go forward. We've got your back.

Tevora offers a full range of services designed to anticipate and meet the changing needs of your enterprise.

Compliance

We assess, audit, and certify compliance across a comprehensive portfolio of cybersecurity standards.

Privacy & Risk

We help you craft strategies to meet the changing demands of privacy regulations and translate cyber risk into rich data to make meaningful business decisions.

Cyber Solutions

We help you plan, implement and integrate cybersecurity products that reduce your risk profile on-prem, mobile and in the cloud.

Penetration Testing

We test your systems, processes, and security with a world class team of certified hackers and security researchers.

Incident Response

We are a team of first responders, threat hunters, and incident containment specialists working with the latest tools and techniques; ready to serve when your business needs it most.

Cloud Security

We ensure you have provable cloud compliance as an output of your migration to the cloud.
