CISO as a Service

CISO as a Service (CaaS) has been crafted to provide organizations in need of security expertise and guidance with access to top-tier security specialists. CaaS is not just one person; it's a team.

What Are the Benefits of Using Tevora's CISO as a Service?

Increased Security Expertise

You gain access to information security experts whose extensive experience with different industries and business models complements and strengthens your organization's cybersecurity team.

Immediate Value

No time is wasted on lengthy recruitment, onboarding, and training, which allows the ability to add critical CISO support immediately.

Unbiased Leadership

Provides an objective assessment of your organization's security posture.

Scalable and Adjustable

Our team can adapt to fluctuations in your need for CaaS, ensuring the right amount of security resources at the right time.

Cost-Effective

With a no locked-in commitment to CISO staff salary and benefits, you only pay for what you need.

Your Trusted Partner

Tevora can be a trusted partner to help you build and support a world-class cybersecurity program. Whether you need a few technical resources, a senior strategic advisor to interact with your board, or a larger team to help make significant enhancements to your cybersecurity program, we've got you covered.

How Tevora's CaaS Team Strengthens Cybersecurity Programs

_____

Strategy Assessment

- Understand the organization's business drivers and strategic direction.
- Clearly define your cybersecurity goals and strategies for the overall program.
- Determine any cyber threats that could impact the company's direction.
- Identify gaps with any regulatory or compliance requirements and technical control gaps within overall network and infrastructure.
- Choose an industry-standard framework upon which the program will be based.

Implementation

- Develop a prioritized, actionable plan to drive inception, maturity, and governance.
- Coordinate with external partners to support compliance.
- Execute the plan with guidance from Tevora provided CaaS resources.

Measurement

- Define and measure 60, 90, and 120+ day objectives.
- Establish and track metrics & reporting targets.
- Conduct reoccurring meetings with stakeholders, including the Board.
- Provide ongoing direction for the information security team on general security topics.

Go forward. We've got your back.

We live in a digital world, and your customers trust you to keep their information safe. We make it our responsibility to equip you with the information, tools, and guidance you need to stay out of the headlines [and get back to business].

Eyes on the future.

Tevora takes a long-term outlook and proactive approach to every engagement. We combine our technical knowledge with practical business acumen to produce and execute strategies that fortify your organization's assets and build a foundation for the future.

Audit Standards

Our MBAs and CISSPs can help your organization assess and test against PCI DSS, PA-DSS, SSF, HITRUST, ISO 27001, STAR, SOC I, SOC II, MPAA and more.
