

## CISO as a Service

CISO as a Service (CaaS) is designed to make top-tier security specialists available to organizations that need security expertise and guidance. CaaS is not just one person; it's a **team**. ▲

### What Are the Benefits of Using Tevora's CISO as a Service?

- **Increased Security Expertise**  
You gain access to information security experts whose extensive experience with different industries and business models complement and strengthen your organization's cybersecurity team.
- **Immediate Value**  
No time is wasted on lengthy recruitment, onboarding, and training, which allows you to add critical CISO support immediately.
- **Unbiased Leadership**  
Provides an objective and unbiased assessment of your organization's security posture.
- **Scalable and Adjustable**  
Tevora can easily adapt to fluctuations in your need for CaaS, which ensures you have the right amount of security resources at the right time.
- **Cost-Effective**  
With no locked-in commitment to CISO staff salary and benefits, you only pay for what you need.

### Your Trusted Partner

Tevora can be a trusted partner to help you build and support a world-class cybersecurity program. Whether you need a few technical resources, a senior strategic advisor to interact with your board, or a larger team to help make significant enhancements to your cybersecurity program, we've got you covered.

## How Tevora's CaaS Team Helps Clients Strengthen Their Cybersecurity Programs

### Strategy Assessment

- Understand your company's business drivers and strategic direction.
- Clearly define your cybersecurity goals and strategies for the overall program.
- Determine the cyber threats that could impact the company's direction.
- Identify gaps with any regulatory or compliance requirements and technical control gaps within overall network and infrastructure.
- Choose an industry-standard framework upon which the program will be based.

### Implementation

- Develop a prioritized, actionable plan to drive inception, maturity, and governance.
- Coordinate with external partners to support compliance.
- Execute the plan with guidance from Tevora-provided CaaS resources.

### Measurement

- Define and measure 60, 90, and 120+ day objectives.
- Establish and track metrics & reporting targets.
- Conduct reoccurring meetings with stakeholders, including the Board.
- Provide ongoing direction for the information security team on general security topics.

## Company Overview

Tevora is a specialized management consultancy focused on cyber security, risk, and compliance services. Our combination of collaborative strategic planning and skillful execution make us a trusted partner to some of the most famous brands in the world.

### Go forward. We've got your back.

We live in a digital world, and your customers trust you to keep their information safe. We make it our responsibility to equip you with the information, tools, and guidance you need to stay out of the headlines and get back to business.

### Eyes on the future.

Tevora takes a long-term outlook and proactive approach to every engagement. We combine our technical knowledge with practical business acumen to produce and execute strategies that fortify your organization's assets and build a foundation for the future.

### Audit Standards

Our MBAs and CISSPs can help your organization assess and test against PCI DSS, PADSS, HITRUST, ISO 27001, STAR, SOC I, SOC II, MPAA, NIST CSF/ 800-171 and CMMC.
