

## HIPAA Compliance Services

The Health Insurance Portability and Accountability Act (HIPAA) protects sensitive patient information. It outlines strict protocols that companies handling or encountering Protected Health Information (PHI) must adhere to.

### What is the HIPAA Security Rule?

The HIPAA Security Rule defines requirements for protecting electronic PHI (ePHI) such as electronic medical records. Tevora's team of compliance experts can help you comply with these requirements, which ensures you are storing, using, and sharing sensitive patient data securely and legally.

### What Are the Benefits of Using Tevora's HIPAA Compliance Services?

**Expertise and Experience.** Tevora's in-depth healthcare and security knowledge and proven compliance methodologies smooth your path to compliance.

**Insightful Advice.** We take the time to get to know your people and learn about your organization's unique pressures and challenges. This enables us to provide insightful advice that's tailored for your environment.

**Verified by Tevora.** Upon successful completion of our HIPAA Attestation, you can use the "Verified by Tevora" shield on your website and in marketing materials to give your customers and partners confidence that their sensitive healthcare data is safe.

## How Tevora Helps You Achieve HIPAA Compliance

### Gap Analysis

Conduct interviews and review processes, systems, controls, and documentation related to handling of ePHI data.

Identify areas that fall short of requirements defined in the HIPAA Security Rule.

Prepare HIPAA Gap Analysis Report documenting gaps and recommending remediation steps.

### Risk Assessment

Conduct HIPAA risk assessment against IT and security systems and processes.

Prepare HIPAA Assessment Report outlining identified risks.

### Remediation

Remediate gaps identified in Gap Analysis.

Tevora partners with you to perform this work, which may range from writing security policies to implementing security controls.

### HIPAA Attestation

When remediation work is complete, conduct review of environment to assess compliance with HIPAA requirements.

Prepare HIPAA Security Rule Attestation Letter confirming your compliance with HIPAA security requirements.
