Beyond Point-in-Time: Continuous Pen Testing

AI-Driven Vulnerability Discovery Requires Vigilance Beyond a Limited Testing Window

Threat actors don't operate on an annual schedule, and your testing shouldn't either. For organizations looking to move beyond a point-in-time assessment, many turn to Continuous Pen Testing tools.

Unlike traditional assessments that only provide a static snapshot of your security posture, continuous penetration testing provides an ongoing, real-time evaluation of your rapidly evolving environment. By seamlessly integrating into your development lifecycle, this approach constantly probes for weaknesses whenever new code is pushed, configurations are modified, or new zero-day threats emerge. Ultimately, continuous testing drastically shrinks an organization's window of exposure, empowering security teams to identify, validate, and remediate critical vulnerabilities immediately rather than waiting months for their next scheduled review.

CONTINUOUS PEN TESTING SERVICES

Expert, CREST-Certified penetration testing with the added benefit of ongoing monitoring and data analysis

WHAT IT ACCOMPLISHES:

Expert driven pen testing elevated by continuous AI powered testing and attack surface monitoring to maintain visibility into vulnerabilities beyond the point-in-time test.

BEST FOR:

All customer - or employee-facing web and external applications

TESTING METHODOLOGY:

- Ongoing pen testing data analysis without sacrificing the assurance of an expert driven point-in-time test
- Infrastructure and application reconnaissance, OSINT automated vulnerability scanning with manual triage
- Coverage for existing web and external pen testing

Go forward.
We've got your back.

Founded in 2003, Tevora is a specialized management consultancy focused on cybersecurity, risk, and compliance services. Based in Irvine, CA, our experienced consultants are devoted to supporting the CISO in protecting their organization's organizations, people, and assets. We make it our responsibility to ensure the CISO has the tools and guidance they need to build their departments, so they can prevent and respond to daily threats.

Our expert advisors take the time to learn about each organization's unique pressures and challenges, so we can help identify and execute the best solutions for each case. We take a hands-on approach to each new partnership, and—year after year—apply our cumulative learnings to continually strengthen the company's digital defenses.

ACHIEVED ACCREDITATIONS

ISO 27001 Lead Auditor · ISO 27017 Certified · A2LA Accredited CERT #5062.01 · CREST Pen Test

ACHIEVED ASSESSOR

PCI Security Standards Council — PCI DSS QSA, PCI PA-DSS QSA, 3DS ASSESSOR · AICPA SOC · ISO Audit · HITRUST Authorized CSF Assessor · TPN Trusted Partner Network · FedRAMP · GovRAMP

AI SECURITY STRATEGY

Artificial Intelligence has prompted a new landscape of compliance frameworks, threat vectors, and security tools. We make it our job to understand and pioneer the security programs that account for—and take advantage of—all that AI brings to the table.

COMPLIANCE

The assessment is only the first step of your compliance journey. We'll help you understand your path to achieving and maintaining continuous compliance against the security and privacy frameworks you need to do business.

THREAT MANAGEMENT & RESPONSE

Whether proactive or in case of emergency, Tevora has your back in the face of threat actors. We offer comprehensive and targeted penetration testing, social engineering, and other tactics to find gaps before others can exploit them.

SECURITY INFRASTRUCTURE

Tevora takes a vendor-agnostic stance to help companies find the best fit software solutions for their security needs. And with knowledge of hundreds of solutions vendors across dozens of categories, we'll help you find your fit.

RISK & STRATEGIC SERVICES

Address risks before they become an issue. Proactive and comprehensive exercise to find and address weaknesses in your security program through Enterprise Risk Management, Third Party Risk Management, Business Continuity and Disaster Recovery exercises, and more.

RESOURCE AUGMENTATION

The complex and specialized work required by cybersecurity and compliance programs sometimes require a focused, expert resource. Tevora can supplement your internal team with flexible Governance, Risk & Compliance (GRC) support, expert DevSecOps support, or even executive-level CISO assistance.
