Tevora's cybersecurity experts follow a meticulous approach in helping ensure a strong security posture for your nuanced organization.

1. Identify level of support: From a carefully matched Fractional CISO to supplemental CISO Advisory services, or solution-specific support. Tevora ensures you have all the help you need – no more, no less.
2. Baseline assessment: We'll take a careful look at your existing security policies and procedures, performing initial compliance and risk assessments and gap analyses to find the best ways to elevate your security posture.
3. Planning and implementation: With a full understanding of your organization, we'll develop a customized annual plan with the strategies and tactics required to help you meet your security goals.
4. Ongoing review: As needed, quarterly reviews ensure the plan stays on track, while we set your team up for sustainable, long-term success with your new security program.

Fractional CISO or CISO Advisory Services

Go forward. **We've got your back.**

Founded in 2003, Tevora is a specialized management consultancy focused on cybersecurity, risk, and compliance services. Based in Irvine, CA, our experienced consultants are devoted to supporting the CISO in protecting their organization's organizations, people, and assets. We make it our responsibility to ensure the CISO has the tools and guidance they need to build their departments, so they can prevent and respond to daily threats.

Our expert advisors take the time to learn about each organization's unique pressures and challenges, so we can help identify and execute the best solutions for each case. We take a hands-on approach to each new partnership, and—year after year—apply our cumulative learnings to continually strengthen the company's digital defenses.
