TEVORA™

FedRAMP 20x

UNDER CR26

Prepare for the cloud-native, automation-first certification path with expert guidance from an accredited FedRAMP Recognized 3PAO, from KSI readiness through independent assessment.

WHAT IS FEDRAMP 20X?

FedRAMP 20x is the cloud-native certification path defined under CR26. Instead of describing how each control is implemented, providers prove that defined security outcomes are true, and keep proving it through machine-readable evidence validated continuously.

Those outcomes are the Key Security Indicators (KSIs), organized into ten families. KSIs do not replace NIST SP 800-53; each maps to underlying controls, so the rigor carries over. Assessment shifts from show me the document to show me the system.

20x is a strong fit for fully cloud-native SaaS on authorized IaaS and PaaS, with infrastructure as code, mature CI/CD, and automated evidence. It shifts effort from documentation toward engineering and automation.

20X ELIGIBILITY & KSI READINESS

We confirm a defensible eligibility position for the target class and assess readiness against every applicable Key Security Indicator.

AUTOMATION & EVIDENCE MAPPING

We assess automation maturity and map machine-readable, re-validatable evidence sources to each KSI, ready for an assessor to re-run.

INDEPENDENT ASSESSMENT

As an accredited FedRAMP 3PAO, Tevora performs 20x independent verification and validation under a separate engagement from advisory work.

Go forward.
We've got your back.

Founded in 2003, Tevora is a specialized management consultancy focused on cybersecurity, risk, and compliance services. Based in Irvine, CA, our experienced consultants are devoted to supporting the CISO in protecting their organization's organizations, people, and assets. We make it our responsibility to ensure the CISO has the tools and guidance they need to build their departments, so they can prevent and respond to daily threats.

Our expert advisors take the time to learn about each organization's unique pressures and challenges, so we can help identify and execute the best solutions for each case. We take a hands-on approach to each new partnership, and—year after year—apply our cumulative learnings to continually strengthen the company's digital defenses.

ACHIEVED ACCREDITATIONS

ISO 27001 Lead Auditor · ISO 27017 Certified · A2LA Accredited CERT #5062.01 · CREST Pen Test

ACHIEVED ASSESSOR

PCI Security Standards Council — PCI DSS QSA, PCI PA-DSS QSA, 3DS ASSESSOR · AICPA SOC · ISO Audit · HITRUST Authorized CSF Assessor · FedRAMP · TPN Trusted Partner Network · GovRAMP

AI SECURITY STRATEGY

Artificial Intelligence has prompted a new landscape of compliance frameworks, threat vectors, and security tools. We make it our job to understand and pioneer the security programs that account for—and take advantage of—all that AI brings to the table.

COMPLIANCE

The assessment is only the first step of your compliance journey. We'll help you understand your path to achieving and maintaining continuous compliance against the security and privacy frameworks you need to do business.

THREAT MANAGEMENT & RESPONSE

Whether proactive or in case of emergency, Tevora has your back in the face of threat actors. We offer comprehensive and targeted penetration testing, social engineering, and other tactics to find gaps before others can exploit them.

CYBER TOOLING

Tevora takes a vendor-agnostic stance to help companies find the best fit software solutions for their security needs. And with knowledge of hundreds of solutions vendors across dozens of categories, we'll help you find your fit.

RISK & STRATEGIC SERVICES

Address risks before they become an issue. Proactive and comprehensive exercise to find and address weaknesses in your security program through Enterprise Risk Management, Third Party Risk Management, Business Continuity and Disaster Recovery exercises, and more.

RESOURCE AUGMENTATION

The complex and specialized work required by cybersecurity and compliance programs sometimes require a focused, expert resource. Tevora can supplement your internal team with flexible Governance, Risk & Compliance (GRC) support, expert DevSecOps support, or even executive-level CISO assistance.
